*Legislation relating to inspections, accidents, enquiries, safety and welfare to apply to mineral concessions.*

84. Except where the context in this Part otherwise requires this Act and the laws relating to the safety and welfare of persons and the service of notices in connection with prospecting

and mining operations shall apply to a mineral concession and all prospecting and mining operations on such mineral concession.

*Right of owner of a mineral concession.*

85. The holder of a mineral concession or a person having a tribute agreement with him in writing may prospect or mine on a mineral concession:

Provided that he may not prospect for or mine any restricted mineral unless he is in possession of a special licence to do so issued under section 11.

*Reporting discovery of minerals on a mineral concession.*

86. The discovery of any minerals on a mineral concession shall be reported by the person making such discovery to the Commissioner within a period of thirty days of such discovery.

*Notification when prospecting and mining proceeds on a mineral concession.*

87. No prospecting or mining shall be commenced upon a mineral concession until the Commissioner has been notified.

*Improvements may be made by the owner of surface rights on a prior-dated mineral concession in certain circumstances.*

88. (1) If after the date of the coming into force of this Act the owner or occupier of the surface rights of any private land subject to a prior-dated mineral concession desires to make any improvements on such land which is not being used for prospecting or mining purposes, he may, failing agreement with the holder of the mineral concession, after notice to such holder apply to the Minerals Committee for a declaration that he is entitled to make such improvements, and the Minerals Committee, if satisfied that there is no reasonable prospect of mining on such land or of such improvements interfering with mining thereon, may authorise such improvements or make such other order as it thinks fit.

(2) If it should afterwards be discovered that there are payable minerals on such land or that such improvements will interfere with mining, the holder of the prior-dated mineral concession may carry on mining operations on such land after payment of compensation to the owner or occupier of the surface rights for such improvements, and such compensation, failing an agreement, shall be settled by the High Court, in accordance with the provisions of section 8 of the Constitution. (Amended L.N.8/1969.)

(3) Nothing in this section shall prevent the owner or occupier of the surface rights making at any time improvements upon private land subject to a prior-dated mineral concession without notice to the holder of such concession provided that compensation may not be claimed for disturbance or damage to such improvements.

*Holder of a prior-dated mineral concession may disturb improvements without compensation in certain circumstances.*

89. (1) If improvements have been made on any private land by the owner or occupier of the surface rights before the date of the coming into force of this Act, the holder of a prior-dated mineral concession on such land may, subject to the Forests Preservation Act No. 14 of

1910, or the Private Forests Act, No. 3 of 1951, disturb or damage such improvements in the exercise of his rights without payment of compensation:

Provided that —

- (a) he gave notice of objection to the owner or occupier of the surface rights at the time of making such improvements, or
- (b) on application being made to the Minerals Committee by the owner or occupier of the surface rights the aforesaid holder can prove to the satisfaction of the Minerals Committee that his prospecting or mining is *bona fide* and justifiable, and that it cannot be carried on in a reasonable manner without damage to such improvements.

(2) If the holder of a prior-dated mineral concession has not commenced and continued to carry on such *bona fide* and justifiable prospecting or mining operations on such land within a year from the date of the coming into force of this Act he shall only be entitled to disturb or damage such improvements after payment of compensation to the owner or occupier of the surface rights; such compensation, failing an agreement, shall be settled by the High Court, in accordance with the provisions of section 8 of the Constitution. (Amended L.N.8/1969.)

(3) Nothing in this section shall affect an agreement made between the owner or occupier of the surface rights and the holder of the prior-dated mineral concession that improvements should take place without compensation for disturbance or damage to such improvements.

*Investigation in respect of minerals by the Government.*

90. If in the opinion of the Ngwenyama it is desirable that any investigation be carried out on any mineral concession in connection with the occurrence or possible occurrence of any mineral on that mineral concession he may, by writing under his hand, direct any officer in the department or other person to carry out the investigation.

*Prospecting on a mineral concession.*

91. (1) The Ngwenyama may if —

- (a) the holder of any mineral concession or any person who is entitled under any tribute agreement to prospect for minerals on any mineral concession does not, in respect to any particular mineral specified by the Ngwenyama, avail himself of the right to prospect on such mineral concession; or
- (b) such holder or person, having so availed himself of such right, does not carry on or cause to be carried on prospecting to the satisfaction of the Ngwenyama; and
- (c) in the opinion of the Commissioner adequate prospecting operations may prove the existence of such mineral on the mineral concession,

cause to be given to such holder, and in the case of a mineral concession subject to any such tribute agreement, also to such person, a notice in writing calling upon him adequately to prospect or to cause to be prospected for such mineral upon the mineral concession and to commence such prospecting or cause such prospecting to be commenced within a period specified in the notice, not being less than three months; and the Ngwenyama may, if such mineral is not prospected for on the mineral concession to the satisfaction of the

Commissioner or if such prospecting is not commenced within the said period or within such further period as the Ngwenyama may allow, or if any right granted under sub-paragraph (i) or (ii) terminates or is terminated for any reason, after considering any representations in writing by such holder or other person —

- (i) by notice in the gazette and in one or more newspapers circulating in Swaziland call for tenders for a prospecting right over the mineral concession in respect of the mineral concerned and grant such right, subject to such conditions as he may determine and to the provisions of subsection (2), to any tenderer who satisfies the Ngwenyama either that his financial resources are adequate for proper prospecting under such right or that the arrangements by which he proposes to obtain capital for the said purpose are satisfactory; or
- (ii) grant a prospecting right subject to such conditions as the Ngwenyama may determine and to subsection (2), over the land in respect of the mineral concerned to any person applying therefor who so satisfies him:

Provided that before the issue of any notice to such holder the Ngwenyama shall give due consideration to the provisions of any special authority agreement entered into between the Government and such holder.

(2) Any such right shall provide for the payment by the prospector to the Commissioner, for the benefit of the holder of the mining rights, of a rental to be fixed by the Commissioner on the recommendation of the Minerals Committee made after considering any representations in writing by such holder.

*Mining leases to prospectors.*

92. (1) If the Ngwenyama is satisfied —

- (a) as a result of prospecting carried out on any mineral concession under a prospecting right granted under section 91 that there are reasonable grounds for believing that any mineral exists in workable quantities on the mineral concession; and
- (b) that the scheme according to which the prospector proposes to mine such mineral is satisfactory, and either that his financial resources are adequate for the proper mining of such mineral or that the arrangements by which he proposes to obtain capital for the said purpose are satisfactory, the prospector shall be entitled upon application to receive and the Ngwenyama shall have the power to grant to him, subject to such conditions as the Ngwenyama, after consultation with the Minerals Committee, may determine, and to the succeeding provisions of this section, a mining lease or location in respect of such mineral and of such other minerals as may be won in conjunction therewith over an area of the land sufficient to constitute a workable mining proposition, the extent whereof shall be determined by the Minerals Committee.

(2) Any such lease or location shall provide for the payment by the lessee to the Commissioner for the benefit of the holder of the mineral concession, of such royalty, share of profits or other consideration as may be recommended by the Minerals Committee, after considering any representations in writing by such holder.

(3) The profits, of which a share is payable in terms of any such lease or location, shall be determined by the Collector of Income Tax in like manner as the taxable income

derived from mining operations is determined for the purposes of the law relating to income tax.

(4) Neither the Government nor the owner of the land shall at any time be liable to make any compensation whatsoever for any improvements made by the holder of the mining lease or location upon the area of such lease or location.

(5) The prospector shall furnish such particulars as the Commissioner may require as to —

(a) the royalty, share of profits or other consideration referred to in subsection (2), which he offers to pay; and

(b) any other matter connected with the proposed lease or location.

*Other mining leases.*

93. (1) If the Ngwenyama is satisfied —

(a) otherwise than as a result of prospecting carried out under a prospecting right granted under section 91 that there are reasonable grounds for believing that any mineral exists in workable quantities on any mineral concession; or

(b) as provided in section 92(1)(a) and no mining lease or location is applied for by the prospector in respect of the mineral concession concerned, within a period of six months after his discovery of any mineral in quantities which may, in the opinion of the Commissioner, reasonably be believed to be workable; or

(c) as provided in the said paragraph, and the prospector is granted a mining lease or location over an area in which a portion of the mineral concession upon which he has discovered any mineral in such quantities, is not included; or

(d) if any lease or location granted under section 92 or under this subsection in respect of any mineral terminates or is terminated for any reason before the quantities thereof which can be profitably mined have become exhausted;

the Ngwenyama may after giving due consideration to the provisions of any special authority agreement entered into between the Government and the holder of the mineral concession —

(i) by notice in the gazette and in one or more newspapers circulating in Swaziland call for tenders for a mining lease or location in respect of the mineral concerned on such mineral concession or portion thereof, as the case may be, and may, if it has been shown that the scheme according to which any tenderer proposes to mine such mineral is satisfactory, and either that his financial resources are adequate for the proper mining of such mineral or that the arrangements by which he proposes to obtain capital for the said purpose are satisfactory, grant to such tenderer a mining lease or location in respect of such mineral and of such other minerals as may be won in conjunction with it, over an area sufficient to constitute a workable mining proposition, the extent whereof shall be determined by the Minerals Committee; or —

(ii) grant a mining lease or location in respect of such mineral and of such other minerals as may be won in conjunction with it over such area to any person applying therefor who so satisfies him.

(2) Sections 92(2) to (5) inclusive shall *mutatis mutandis* apply in respect of any lease or location granted under subsection (1).

(3) If, within a period of five years after the existence of any mineral on any mineral concession in quantities which may, in the opinion of the Ngwenyama reasonably be believed to be workable, has been disclosed by an investigation under section 90, a lease or location under subsection (1)(a), (b) or (c) is granted to any person in respect of such mineral over that mineral concession, such lease or location may provide for the payment by the lessee to the Ngwenyama of so much of the costs which have been reasonably incurred for the purposes of any such investigation or prospecting operations from which the holder of the lease or location will derive benefit in his mining operations as may be recommended by the Minerals Committee, after considering any representations in writing by the parties concerned.

*Recovery of costs of investigations or prospecting.*

94. If, within a period of five years after the existence of any mineral on any mineral concession in quantities which may, in the opinion of the Ngwenyama reasonably be believed to be workable has been disclosed by any investigation under section 91 or any prospecting operations under any exclusive prospecting right granted under this Part, the holder of the mineral concession or any person who is entitled under any tribute agreement to mine for any mineral on that mineral concession mines on that land for such mineral the Ngwenyama or the prospector under such prospecting right, as the case may be, shall be entitled to recover from such holder or person so much of the costs reasonably incurred for the purpose of such investigation or prospecting operations from which such holder or person will derive benefit in his mining operations as the Minerals Committee after considering any representations in writing by the parties concerned, may determine.

*Prospecting right or mining lease or location over two or more portions of mineral concessions.*

95. A prospecting right or a mining lease or location under this Part may be granted over two or more contiguous portions or pieces of mineral concessions whether or not the mining rights are held by the same person or under separate titles:

Provided that any such prospecting right, lease or location may, if the mining rights are separately held by different persons, provide for separate rentals, royalties, shares of profits or other consideration in respect of each such portion or piece of mineral concession.

*Right to mine associated mineral on payment of royalty.*

96. If in the process of mining, any mineral, other than the mineral for which a mining right has been granted by the holder of a mineral concession, is discovered to exist in workable quantities by the grantee, the Ngwenyama may permit the grantee to mine and treat such other mineral on payment to the holder of the mineral concession of such royalty as may be agreed between the parties or, failing agreement, determined by the Minerals Committee.

*Power of entry of officers and prospectors.*

97. Any officer investigating in pursuance of section 90 and any prospector prospecting in terms of this Part may, subject to sections 12 and 13 enter upon any portion of the concession (not being Swazi Area) and exercise thereon the rights set out in section 31.

*Power of entry of lessees.*

98. Any person to whom a lease or location has been granted in terms of this Part may, subject to sections 12 and 13 exercise on the area in respect of which the lease or location has been granted (not being Swazi Area) the rights set out in section 49 and section 41 respectively.

*Exemption from payment of royalty.*

98bis. The Ngwenyama may exempt any person from the payment of a mineral royalty and such exemption shall be published by the Minister by Notice in the Gazette. (Added: A.9/1989.)
